

Applicant: REX WILLIAM FRANCIS
Attorney Docket No.: 4977-00007

REMARKS

The present Preliminary Amendment is being filed in order to provide an Abstract of the Disclosure as new page 15 of the specification, to make of record the claim to priority and to rewrite a number of the claims to bring these claims into the proper format for U.S. prosecution.

Applicant believes the application is in condition for examination and respectfully requests same.

Examination of this application is requested.

Respectfully submitted,

ANDRUS, SCEALES, STARKE & SAWALL, LLP

Atty. Docket No. 4977-00007

ABSTRACT

The present invention provides an improved anchor which is capable of being readily laid, irrespective of the holding or anchorage involved. The anchor includes a first fluke or base member (2), an elongate shank member (9) to which at least one anchor line or chain may be attached, and a second fluke (20) from and disposed substantially parallel to the first fluke (2) but is of a smaller size than the first fluke (2).
